CAREER OBJECTIVE

Seeking a challenging role to leverage expertise in Machine Learning, Deep Learning, and software development to build scalable systems that solve real-world problems. Committed to developing robust solutions, optimizing performance, and delivering measurable business impact through innovative technology and data-driven insights.

EDUCATION

Bachelor of Technology (B.Tech) in Artificial Intelligence and Data Science, Rathinam Technical Campus CGPA: 8.76	2023 – Present Coimbatore
Higher Secondary, R.V Higher Secondary School Percentage: 87.5	2022 – 2023 Dharmapuri

TECHNICAL SKILLS

Programming Language: Python (Advance) | Java | C | SQL
AI/ML: Supervised & Unsupervised Learning | Deep Learning (LSTM, ANN) | Generative AI | RAG | LangChain | TensorFlow | scikit-learn | Model Optimization | Feature Engineering | ML Flow
Backend & Software: FastAPI | REST API | Microservices | Docker | Git & GitHub
Data & Databases: Pandas | NumPy | PostgreSQL | Vector Databases | ETL
Cloud: AWS S3 | GitHub Actions

PROJECTS

AETHER: AI-Based Aerospace Monitoring System,
Tech Stack: Python, TensorFlow/Keras, Streamlit, AWS S3, Pandas, NumPy, Plotly, FPDF

- Developed a scalable AI system to simulate real-time spacecraft telemetry data
- Implemented LSTM deep learning model using TensorFlow/Keras for anomaly detection and failure prediction
- Integrated AWS S3 for cloud storage, improving data accessibility and scalability
- Built interactive dashboards using Streamlit for real-time data visualization and analysis
- Optimized model performance by tuning hyperparameters, improving prediction accuracy

AI Interview Assistant
Tech Stack: FastAPI, LangChain, Python, FAISS, RAG, Streamlit, OpenAI API

- Designed an AI-powered system using FastAPI and LangChain for automated interview generation
- Implemented RAG architecture with FAISS for semantic resume analysis
- Generated context-aware interview questions and real-time evaluation metrics
- Improved system efficiency by optimizing API response time and embedding search

Certifications

- Prompting Essentials (Google) - **Coursera**
- Introduction to RAG - **MongoDB**
- Introduction to Vector Search - **MongoDB**

Key Strength

- AI & Data Science enthusiast skilled in Machine Learning, Deep Learning, Generative AI, and scalable application development with strong problem-solving abilities.
